

## REMARKS

Having received a Notice of Allowance in this case, the application has been reviewed and the applicant wishes to make amendments to page 1 of the disclosure and Claim 12 as currently on file.

### Page 1 of the Disclosure:

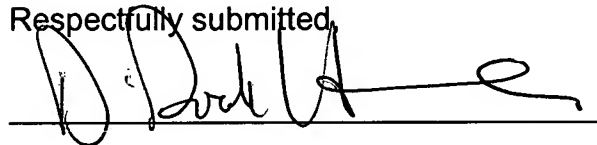

In accordance with Rule 1.78 5(i) of the *Patent Rules*, we have amended Page 1 of the specification to include the reference to the prior-filed provisional application, for which priority is claimed.

### Claim 12:

Upon review of the claims, it is apparent that Claim 12 as allowed is structured in multiple sentences. That being the case, the applicant wishes to amend Claim 12 to eliminate the multiple-sentence structure. No substantive change has been made to Claim 12, the changes being solely to eliminate the multiple-sentence structure.

In view of the above amendments and remarks, it is believed that this application remains in condition for allowance, and a Notice thereof is respectfully requested.

Respectfully submitted,
